MEMORANDUM FOR MR. ARTHUR LUNDAHL, NPIC

SUBJECT: Performance Evaluation of [REDACTED]

STAT

It is a pleasure to comment on [REDACTED] performance with our office. per-

STAT

During the past ten months, I have had the opportunity to observe [REDACTED] work on a first-hand basis, and I am very favorably impressed with what I have seen. His professional competence is well-known and respected. He speaks with authority based on a sound knowledge of his subject, and an increasing number of people are turning to him for information and advice. He responds well to pressure: we have used him as a trouble-shooter, and his analytical approach has invariably led to a very professional solution.

STAT

In his primary field, [REDACTED] efforts have facilitated the translation of consumer requirements into useful products. His comprehensive knowledge of exploitation and operational functions has made him a leader in this important area.

STAT

In addition to duties within this primary field, [REDACTED] has shown a commendable willingness to work on things which "need doing" for the good of the program. Recently, on his own initiative, he directed the preparation of a series of technical data manuals which will enhance the effectiveness of product exploitation within the entire community.

STAT

[REDACTED] position has grown steadily in importance since his arrival. I consider him one of the most valuable and outstanding members of our organization and heartily endorse a top performance rating for him.

STAT
